

**Photo Map to Domeno Villa,
Calle 501, Urb. Montcati, Liria Valencia 46160**

When you exit the airport keep to the left and go up the ramp heading towards Alicante / Castellon

As you join the main road (watch for traffic coming from behind on your left) you will see this sign, go straight on towards Alicante

Go straight on (down) through the tunnel in front of you

After the tunnel you will shortly see this sign, don't turn off for Valencia go straight on for Alicante

Then you will see this sign - now turn off to the right towards Alicante

Carefully join the motorway and you will shortly see the first signpost for Liria, get ready to bear off to the right

Keep in the right hand lane following sign for Liria

You will be going off to the right shortly, heading for the CV-35 Motorway

Take the right hand lane and bear off to the CV-35 motorway

Shortly after turning off to the left the road will split left (Ademuz) and right (Valencia) – head towards Ademuz

This is where the road splits, go left to Liria and Ademuz (don't go towards Valencia) then keep in the right hand lane.....

...and follow the road round to the right heading towards Liria and Ademuz

You have now joined the CV-35 and it's now a straight road to Liria

Do not get off at the first Lliria junction 16, keep going straight on

Straight on past J17 (Marines and Olocau)

Keep on going past the next junction 18 for Lliria Centre and one more junction

When you reach Lliria (oest) and Pedralba junction turn off to the right, be careful this junction is almost directly under the sign for the turning!!!!

Follow the road around to the left then over the motorway, you will then meet this roundabout.

Llíria Town is directly in front of you, but you will be taking the first turn off (almost coming back on yourself) going towards zona industrial

Drive up this road with the industrial buildings on your left hand side....

..... then take the first turning left where the road is staggered.

Once you have turned left you need to follow this road through the countryside for approx 4.5km. You will be driving through olive and orange groves and several small villages or Urbs. (urbanizations) as they are called here.

Drive through - Monte Collado, St Miguel, Montarago and just keep on going until you reach a sign for Montcati (as below)

Please take the next turning on your left (Calle 103) which is just past the salmon red coloured house. Drive a short way along the dirt road until the junction where you bear right. Drive through the bumpy bit and take the next turn on your left (calle 501) our villa is the last building on the left hand side behind the big white wall.

Back the car into the drive, turn off the engine and go get a drink – you have arrived!!!!
